Modular Pre-Cast Fireplace Systems

Vent Free Series

Designed for easy multi-floor installations, our lightweight masonry fireplace systems meet all necessary U.S. building codes for outdoor / indoor construction.

Standard Fireboxes in Three Sizes:*

- MFP39VF (39"):
- MFP44VF (44"):
- MFP49VF (49"):

Custom Vent Free units available at www.Mason-Lite.com/CustomOrder

Features and Benefits:

- Indoor or Outdoor Installation
- Fireplace system ready for your choice of Vent Free Log Set
- Indoor units: Maximum BTU of 40,000 for Indoor (Zero clearance to combustibles)
- Outdoor units: Higher BTU limit (need 2" clearance to combustibles)
- Clean and Environmentally Friendly: Lower outputs of carbon monoxide, pollutants, and particulate matter compared to wood-burners
- Convenient, No-Mess Operation:
 - Free from sparks and long-burning embers
 - No chimney cleaning
 - No messy ashes or wood chips
 - No wood storage space needed
- Optional firebrick panels for an authentic fireplace look-and-feel
- NO Flue for reduced framing requirements- Architects love it!
- Compliant with ANSI-Z 21.50 gas fireplace standard for use with any ANSI Z21.11.2 approved gas logs

*Always Check Local Building Codes before purchase
